# PPD TUBERCULIN SKIN TESTING

FAMILY MEDICINE CENTER • 4151 Road • City, State Zip  
Tel (301) 555 - 1212

You have just received a PPD Skin Test for Tuberculosis. Your skin test area must be looked at in 48 to 72 hours to check for a positive test result. The CENTER FOR DISEASE CONTROL requires all tests be read by a health professional (nurse or doctor). **To best care for your health, our office must follow this rule. If you do not return for your reading, your test will be repeated.**

**Your PPD Skin Test will be checked on:**

( OR )

- Return to Family Medicine Center to have your skin test area checked between 8:00am - 5:00pm Monday through Friday, or on Saturday between 10:00am - 1:00pm.
- No appointment is needed. Sign in on the Urgent Care Board on the counter. Write "PPD reading" where it says "Doctor".
- The Nursing Staff will check your arm for a positive or negative result, and write that result on your chart.
- If you need the result of your PPD Skin Test in writing, please tell the nurse.
