### ALTERATION IN SKIN INTEGRITY REPORT

**REPORT DATE:**

**TIME:**

**ADMITTING DIAGNOSIS:**

---

**TYPE OF WOUND:**

- [ ] PRESSURE ULCER
- [ ] SKIN TEAR
- [ ] ABRASION
- [ ] BLISTERS
- [ ] OTHER:

---

**NOTIFICATIONS:**

- [ ] PHYSICIAN:
- [ ] NURSE MGR:
- [ ] WOCN:

---

**WOUND NOTED:**

- [ ] ON ADMISSION
- [ ] DURING HOSPITALIZATION

**WOUND LOCATIONS:**

Circle area & number each wound

---

**SUMMARY OF FACTS:**

---

**PRESSURE ULCER STAGING:**

*STAGE ONLY IF PRESSURE ULCER*

**PRESSURE ULCER STAGES:**

- I = Non-Blanchable Erythema; Intact Skin
- II = Skin Loss through Epidermis
- III = Skin Loss through Subcutaneous Fat
- IV = Skin Loss through Muscle / Bone
- E = Eschar (unstagable)

---

**Treatment Order Obtained:**

- [ ] YES
- [ ] NO

**Skin Care Consult Ordered:**

- [ ] YES
- [ ] NO

**Dietary Consult Ordered:**

- [ ] YES
- [ ] NO

**Pressure Ulcer Standard Initiated:**

- [ ] YES
- [ ] NO

**TREATMENT ORDERED:**

---

8850461 Rev. 08/04 Alternation in Skin Integrity Report_NURSING

PAGE 1 of 2
STAGE I:
Skin is intact. Color may will be reddened and may display blue / purple hues. May also include changes in temperature, tissue consistency and / or sensation.

- Relieve Pressure
- Is there Friction?
- YES → Tegaderm
- NO → Turn & Reposition Q two (2) Hours

STAGE II:
Superficial Lesion which looks like an abrasion, blister or shallow crater.

- Is area exposed to moisture? (incontinence) (red) clean
- YES → Proshield Plus or Hydrocolloid
- NO → Curasol Gel & Gauze Dressing or Hydrocolloid or Tegaderm or Proshield Plus

STAGE III:
Crater with or without undermining of adjacent tissue.

- What is the appearance of the wound?
- Red (Clean)
  - What is the amount of exudate?
  - Dry
    - Minimal
    - Moderate
    - Heavy → Calci Care or Hydrocolloid
  - Moderate → Calci Care or Hydrocolloid
- Necrotic (Yellow / Black) (Moist slough -or- with mixed eschar / dry)
  - Accuzyme or Hydrocolloid Mesalt (wet/wet)
    - * severe
- Mixture of Moist Slough & Dry Eschar
- Dry Eschar (black)

STAGE IV:
Crater that extends to muscle or bone.

- What is the appearance of the wound?
- Red (Clean)
  - What is the amount of exudate?
  - Dry
    - Minimal
    - Moderate
      - Calci Care
  - Moderate → Calci Care
  - Heavy
    - Minimal
    - Moderate → Calci Care
  - Heavy → Accuzyme or Mesalt
    - Accuzyme or Dry Dressing (feet)
