Patient Name	MR#
Date:	

Time	Department	
		Pain Score: Pain Scale: 🗆 0-10 🗅 FACES
		□ FLACC □ Visual Analog □ NIPS □ Other:
		Location of Pain: How long have you had pain?
		Worst pain score: Least pain score?
		Pain is: Constant Intermittent Dull Sharp
		☐ Shooting ☐ Burning ☐ Stabbing ☐ Pricking
	*	☐ Aching ☐ Pulling ☐ Throbbing ☐ Cramping
		□ Tender □ Radiates:
		Other:
		What makes pain worse?
		What makes pain better?
		Does pain interfere with:
		□ Sleep □ Physical Activity □ Emotions □ Appetite
		□ School/work/play □ Relationships □ Other:
		Medications for pain:
		Other interventions for pain:
		Patient / family goals: Decreased Pain Dean Score
		☐ Improved ADL ☐ Other:
		Pain Management Interventions:
		Medications:
		Other Interventions: Warm/cold compress Immobilization/positioning
		□ Other:
		Patient /Family Teaching:
		☐ Discussed above interventions with family including the dosage and timing of medications
		□ Patient/family verbalizes understanding of instructions given
		□ Follow up □ Pain Team Consult/Referral
