lung disease

asthma emphysema

cardiac disease

heart attack (MI) angina

heart failure

diabetes

insulin-dependent diet-controlled

oral hypoglycemic

high blood pressure

high cholesterol

other problems

Influenza

Pneumococcal

Medications

none  see nurses note

ASA  NSAID  acetaminophen

herbal / alternative medicines

Allergies

NKDA

see nurses note

SOCIAL HX

FAMILY HX

Physical Exam:

- General Appearance: Alert, Anxious, IV
- Distress: No acute, moderate, severe

EENT:
- Eyes: n nil; inspection
- EENT: inspection n nil
- Pharynx: n nil

NECK:
- Omm inspection
- Thyroid: n nil

Respiratory:
- Pac Resp, distress
- Breach sounds: n nil
- Chest: Non-Tender

CVD:
- Regular rate, rhythm
- No murmur
- No gallop

CVS:
- Irregularly irregular rhythm
- Extrasystoles (occasional/frequent)
- Tachycardia/Bradycardia
- PMI displaced laterally
- JVD present
- Murmur grade
- Gallop: (32/54)
- Friction rub

- Decreased pulse(s)

ABDOMEN:
- Non-Tender
- No organomegaly
- NML bowel sounds

T-tenderness: R-Rebound
M-Mild
M-Moderate
S-Severe
Example: Tyn indicates severe tenderness.

ABDOMEN:
- Tenderness
- Guarding
- Rebound
