SECTION 1: GENERAL APPEARANCE (RN)

General Appearance
- No problems noted

Tongue: Moist
Lips: Moist
Dental Status: WNL

Psychosocial/Emotional
- Agitated/Restless
- Uncooperative
- Hallucinations

SECTION 2: PAIN (RN)

Pain: Yes
Location:
Type: Sharp
Duration:
Rate (0 - 10 Scale): (None) 0 - 1 - 2 - 3 - 4 - 5 - 6 - 7 - 8 - 9 - 10 (Worse) Pain Rating, >5
What Aggravates?:
What Alleviates?:
Worse in: AM

Pain Scale A - Infants up to +/- 3 years of age

Crying
Constipation
Increased V.S.
Expression
Sleepless

Pain Scale B - Children Ages +/- 3 to 8 years of age

Pain Scale C - Patient's perception ages 8 to Adult

0 = No pain
1-3 = Slight discomfort, moves without help
4-6 = Medium discomfort, hesitant movement
7-9 = Severe pain, strained expression, will not move
10 = Very severe pain, withering or screaming, HR, BP

SECTION 3: PATIENT EDUCATION (RN)

Learning Barriers
- Language
- Emotional
- Anxiety
- Memory Loss
- No Participating Care Givers

Learning Style: (what/how patient likes to learn?)
- Reading
- Pictures
- Demonstration

Potential Learning Needs
- Disease Process
- Treatment/Procedures
- Medications
- Nutrition

EDUCATIONAL LEVEL:

SECTION 4: NURSING PROCESS (RN)

- Patient Problem Statement Identified:
- Clinical Pathway(s):

Hospital
DEPARTMENTS OF NURSING
Admission Assessment
**RESPIRATORY**
- Chest Tubes
- Aspiration Risk
- Productive Cough/Secretions
- Mechanical Ventilation?
- Respirations: L R
- Other:

**GASTROINTESTINAL**
- Abdomen: Flat Soft Plain Rigid
- Bowel Sounds: Normal Hypo Hyper Absent
- Ostomy: Colostomy Ileostomy Jejunostomy Stents
- Feeding Tube: NG G-Tube J-Tube
- Nausea: Vomiting Difficulty Chewing
- Constipation: Acute Chronic
- Diarrhea > 5 days

**REPRODUCTIVE**
- Pregnant Weeks
- Fetal Heart Tone: Yes No Rate:
- Currently Breast Feeding
- Post Menopausal

**CARDIOVASCULAR**
- Heart Sounds: Normal Splintered Systolic Neck Carotid
- Pulses: Radial Pedal Post Tibial
- Doppler
- Intermittent
- Normal
- Full
- Bounding
- Color:
- IV Ports: No Problems Noted
- Edema: Location:
- IV Sites: Peripheral Central

**NEUROLOGICAL**
- Consciousness:
- Tingling/Numbness/Weakness
- Alert Person Right Arm Left Arm
- Lethargic Place Time
- Confusion No Response
- Other:

**SHOW LOCATION WITH NUMBER**
- Pressure Relief: H = heels SC = seat cushion HC = head cushion A = air overlay SB = special order surface/bed
- Level: Partial Thickness > Stage I, Stage II
- Full Thickness > Stage III, Stage IV
- Appearance: I = intact E = erythema R = red granulation Y = yellow slough B = black necrosis ES = eschar

**WOUNDS**
- Location (Number) Size (cm) Length Width Depth
- Level Appearance Drainage Dressing Pressure Relief

**SECTION 5: REFERRALS (RN)**
- **Obtain Physician's Order for Consultation**
- No Referrals Noted
- ORDER # Init

**ORDER # Init**
- 8. Cardiology
- 9. ** Speech Therapy
- 10. Lactation Consultant
- 11. Clinical Pharm.
- 12. IV Therapy
- 13. Patient Relations
- 14. Pastoral Care
- 15. Cultural Liaison
